

E. TIDAL REDUCERS

Preliminary reduction of each days data was done using predicted tides. Actual tidal data has been furnished by the Rockville office for the standard tide gauge on the west jetty at Sabine Pass, Latitude $29^{\circ}39.2N$ and Longitude $93^{\circ}49.8W$. This gauge was serviced by LTJG Alan P. Vonderohe. The observer of this gauge was Warrent Officer Wampler who's stationed at the Coast Guard base in Sabine.
