

6. a. The tidal datum for this survey was mean lower low water (MLLW). The tide station at Galveston Pleasure Pier, Galveston, Texas (877-1510) was the reference station. The station was inspected and closing levels were run by HECK's crew on 20 August 1994. No tide stations were established by HECK in support of this survey.
- b. All hydrographic depths have been corrected for predicted tides. Zone correctors were specified in the project instructions. Tidal correctors were applied on line via the HDAPS predicted tide table. Approved tides and zoning were applied during office processing.

c. Zoning was in accordance with project instructions.  
No zoning was used.
