

Final Zoning for OPR D907-RU-97 Delaware Bay, DE

G.3 Tide zoning for this project is consistent with the Project Instructions. Tide correctors were developed by applying a +0 minute time correction and a x1.0 range ratio to the unverified tides from the permanent NOS tide gage installation at Lewes, DE (855-7380). Unverified tides were downloaded from the NOS World Wide Web site: www.opsd.nos.noaa.gov/prelimwl.html
