September 25, 2013

MEMORANDUM TO: Tara Wallace
Chief, Nautical Data Branch, MCD

FROM: Peter Holmberg
Acting Chief, Pacific Hydrographic Branch, HSD

SUBJECT: Charting Recommendation from Hurricane Response Survey

HSD recommends that a single 37 foot sounding be added to chart 12312 in the quarantine anchorage area at 39-48-40.32N, 75-23-26.13W. The origin of the sounding is from hydrographic survey F00624. The survey was a response survey following Hurricane Sandy. The survey acceptance review (SAR) conducted at the Pacific Hydrographic Branch (PHB) concluded that survey F00624 did not meet NOAA specifications. Regardless, the 37 foot sounding is significant enough to be compiled.
