G. Vertical and Horizontal Control

The vertical datum for this project is Mean Lower Low Water. The vertical control method used was VDatum.

The following ellipsoid-to-chart vertical datum transformation was used:
ERS via VDATUM
F00833_Extent_NAD83(2011)-MLLW.csar

An ERS file specific to Dawes Glacier was requested due to the survey operations exceeding the limit of the ERS file provided for OPR-O190-RA-21.
