WASHINGTON

AND REFER TO No. 25-ET

October 9, 1928.

To: The Chief,
Division of Tides and Currents.

From: L. P. Shidy,
Associate Mathematician.

Subject: Plane of Reference for Hydrographic Sheets Nos. 61 and 130.

The data available for these old sheets is very meager, but the indications are that the plane used for reduction of soundings was about half a foot below mean low water, being usually the average of a few lowest tides observed.

Hydrographic sheets 61 and 130, without tubes, and the sounding books, are returned herewith.

(Signed) L. P. Shidy.

File as descriptive report for H. 130.
