Descriptive Report

Muscongus Sound - Lower Narrows
Maine

Plotted on Orig^l Hydro^e Sheet No. 950

After establishing signals Mud, Pot and Har, the locality of shoal or ledge reported in N. M. 41, 1900 was thoroughly examined with a drag set at 12 feet. The drag struck at one spot only and soundings were run over and around this spot. It is a small ledge having 11.2 feet depth of water at M. L. W.

The soundings are plotted in blue on Orig^l Hydro^e Sheet No. 950.

Respectfully Submitted

J. B. Bortell

Assistant, C. & G. S.
