Report  
on  
Hydrographic Sheet  
No. 1620c,  
Tongass Narrows,  
Shoal S.E. of Pennock Island,  
S. E. Alaska.  
Assistant Dickins,  
1903.

All the soundings on this sheet were replotted for the reason that they were not in their correct positions and the figures were too small to easily read.

The records were well kept.

This work was not transferred to Hyd. Sheet 1620a as the triangulation points do not agree with the projection shown on that sheet.
