COAST AND GEODETIC SURVEY

11-644

Washington, D. C.,

January 26<sup>th</sup>, 1909.

Mr. O. H. Fillmann,  
 Superintendent, Coast and Geodetic Survey,  
 Washington, D. C.

Sir:

In obedience to "Instructions and Memoranda for Descriptive Reports, 1887", I have the honor to submit the following report on Hydrographic Sheet No. 1820.<sup>a</sup>

The work was executed for the purpose of making a special examination of a point of the Middle Ground Shoal, Fisher's Island Sound, Connecticut, where an uncharted rock had been reported.

The rock was found and located as shown upon the sheet.

No further descriptive report is considered necessary.

Respectfully submitted,

P. A. Walker,

Assistant, C. + G. Survey.

Lead Sheet Co 1820<sup>a</sup>

Jan. 7, 1909.

Attention is called to the 28 ft sounding at 123 (blue). If this depth is correct as recorded the spot should have been carefully examined.

The isolated <sup>\*</sup> 9 ft shoal is questioned by Mr. Sanger of the field party.

H. L. Simmons

Jan 12, 1908

Oris Walker's attention was called to the 28 ft sdg. mentioned above and his opinion is that the sounding should stand.

G. L. P.

\* Do not omit 9 ft sdg.

G. L. P.
