Report
on
Hydrographic sheet,
No. 2695,
New Jersey Coast,
Great Egg Inlet and vicinity,
N. J.
Assistant-Wainwright,
1904.

From 30 - 32g the soundings were left in pencil, as position 31g is doubtful.

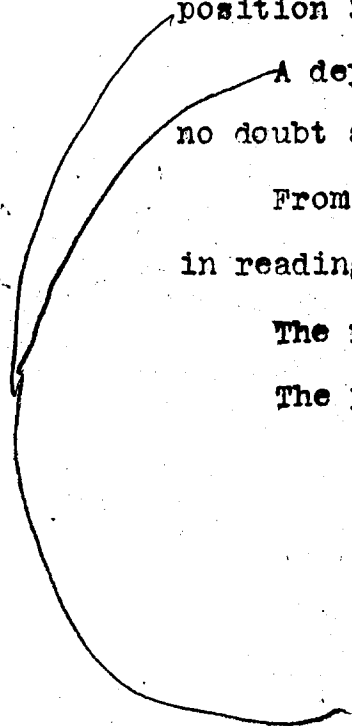

A depth of 12 feet is recorded at position 11 which is no doubt a mistake of 2 fathoms; has been left in pencil.

From 22 - 23b the time is wrong or there was a mistake in reading the angles of position 23b.

The records were not well kept.

The plotting and protracting was well done.

H.L. Simons. (Signed).
