Report on Hyd Sheet # 2769.

The records were kept in a satisfactory manner.

On close work of this kind more care should be taken in numbering the positions. It was necessary to replot nearly all of the work as the positions were numbered only at the end of lines and at every fifth position.

The least water found in the channel was 20 1/2 feet.

H. L. Simons

Jan. 11, 1906.

3/22/07 Mr Shidy's letter of Dec 1906 to Asst In Chg. states that plane of reference used ~~is~~ should be retained.
