To the  
Superintendent  
Coast & Geodetic Survey  
Washington D.C.

ANSWERED  
SEP 19 1907.  
Library and Archives.

Sir:-  
There is forwarded by mail,  
under separate cover, the original  
copy of the "Rough Preliminary  
Map" of the Juleta California, Royal  
Speed Trial Course.

The Light House Inspector on duty in  
this District at the time that the  
buoys were planted requested me  
to keep this map so that if necessary  
to exploit buoys he could readily  
borrow it for the purpose; as the  
trials are all over and I am  
about to leave the country I

I now forward it to the Office.

The only value that this may possess is that it would be of value as an original sheet, to use in the field, should it become necessary, sometime in the future, to replace the course buoy.

The tracing, from which all the blue prints used by the respective Fieldboard and Contractors have been made, I have today turned over to Assistant A. F. Redger in charge of the San Francisco Sub Office.

This letter, combined with the letter on the map is intended as a descriptive report.

Very respectfully  
J. J. Smith  
J. J.
