

This survey was conducted using predicted tides based on daily predictions at San Juan, ^{PUERTO}~~Puerto~~ Rico (Station Number 975-5371)

Smooth tides were requested from the Chief, Tides and Water Levels Branch (N/OMS 12) in a letter dated 23 April 1983.

Smooth tides and settlement and squat correctors will be applied on the final smooth sheet prepared by the ^{HYDROGRAPHIC SURVEYS BRANCH}~~Processing Division~~, Atlantic Marine Center (MOA 23)
