

This survey was plotted using unverified actual water levels reduced to Low Water Datum (LWD) when Lake Superior is at elevation 600.0 ft. (IGLD) and the gage above the locks reads 599.8 ft. Water levels were obtained from the gage at Southwest Pier, USCOE Base, Sault Ste. Marie, Michigan, Station No. 907-6070. VERIFIED WATER

LEVELS WERE APPLIED DURING OFFICE PROCESSING.
