

6. a. The tidal datum for this survey was mean lower low water (MLLW). The tide station at South Padre Island, Texas (877-9751) was the reference station. Contact with the observer was made, the station was inspected and bracketing levels were run by HECK's crew. No tide stations were established by HECK in support of this survey.

- b. All hydrographic depths have been corrected for predicted tides. No zone correctors were specified in the project instructions. Tidal correctors were applied on line via the HDAPS predicted tide table.

- c. Zoning was in accordance with project instructions.
APPROVED TIDES and ZONING have been applied during OFFICE PROCESSING
