

Tide Correctors ✓

The following time and height correctors were applied to predicted tides for the Juneau, Alaska, reference station (945-2210). These correctors are for Cleveland Passage, number 1665 in table 2 of the 1993 NOAA Tide Tables.

TIME		HEIGHT	
<u>High Tide</u>	<u>Low Tide</u>	<u>High Tide</u>	<u>Low Tide</u>
-1 min	+3 mins	-1.2 FT	-0.1 FT

HDAPS listings of the data used in generating tide corrector tables are included in Appendix V^{*} of this report.

Tide gages were installed and maintained by RAINIER personnel at The Brothers, Frederick Sound (945-1785) and Port Houghton, Stephens Passage (945-1771). The control station was Juneau, Alaska (945-2210). Opening levels were completed by RAINIER personnel on April 2, 1993. Closing levels will be completed by RAINIER personnel on April 16, 1993.

The station descriptions, field tide records, and Field Tide Notes will be forwarded at the conclusion of the project to N/OES212 in accordance with HSG 50 and FPM 4.3. Requests for approved tides will be forwarded to N/OES2. *Approved tides were applied to the smooth sheet.*
