

Tide Correctors ✓

Predicted tide correctors from the existing Primary station at Port Angeles, 944-4090, were applied to soundings in field processing. Final correctors will be applied from data collected by this station. In compliance with Section 5.9 of the Project Instructions, one zone was established for this survey based on data for reference station 944-4090, Port Angeles, WA. This tidal zone applied a +30 minute time correction and a x1.04 range ratio. *

Tide Note dated April 6, 1995 is attached.
