

G.6 a) The tidal datum for this project is mean lower low water. The operating tide station at Sabine Pass, Texas, (station number 877-0570) served as control station for tides during the course of this survey. Predicted tidal data for this survey was provided on floppy magnetic disk before the start of the project. *APPROVED TIDES AND ZONING WERE APPLIED DURING OFFICE PROCESSING.*

b) The height and time correctors listed below were provided in the project instructions for sheet B and applied to the Sabine Pass, Texas, (station number 877-0570) tides to generate online predicted tide tables:

<u>TIME CORRECTOR</u>	<u>HEIGHT RATIO</u>
-30 minutes	x1.40

c) No zoning was required for this sheet.
