GENERAL EXPLANATION

LORAN-C PROFILES
1000m 1000m
100m 100m
10m 10m
1m 1m

Station Type Designations: (For information only - not for navigation)

W: Main
S: Secondary
M: Monitor
E: Example

RATES ON THIS CHART
7960 X 7960-Y

The LORAN-C rates of sound are corrected on this chart have been prepared for use in the general area shown and are not intended for use for precise propagation data which have not yet been corrected by electronic data. Mariners are cautioned not to rely entirely on the rates as in these waters. Special corrections are not printed.

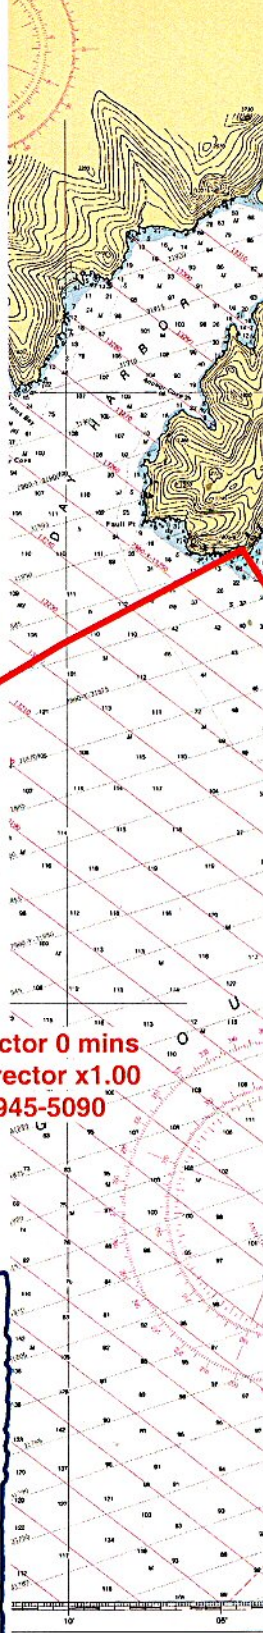

HORIZONTAL DATUM
The horizontal reference datum of the chart is North American Datum of 1983 (NAD 83) which for charting purposes is considered equivalent to the World Geodetic System 1984 (WGS 84). Geographical coordinates are given in North American Datum of 1983. True bearings are given in degrees and minutes and true distances in meters.
