

**POINT DUME TO PURISIMA POINT**

Mercator Projection  
Scale 1:232 598 At Lat. 34°00'

North American Datum of 1983  
(World Geodetic System 1984)

**SOUNDINGS IN FATHOMS**  
(FATHOMS AND FEET TO ELEVATIONS)

Additional information can be obtained at nauticalcharts.noaa.gov  
(For offshore navigation only)  
Use larger scale chart outside 5 nm range for more navigation

Chart No.	Year	NOA Survey	Coverage
A	1990-2008	NOA Surveys	full bottom coverage
B	1990-1995	NOA Surveys	partial bottom coverage
C	1990-1995	NOA Surveys	partial bottom coverage
D	1990-1995	NOA Surveys	partial bottom coverage
E	Pre-1990	NOA Surveys	partial bottom coverage

**CAUTION**  
Charted submarine pipelines and submarine cables and submarine pipelines and cables are shown as follows:

- Submarine Pipeline Area
- Submarine Cable Area

**NOTE A**  
One-way traffic lanes designated on this chart are recommended for use by all vessels traveling between the points indicated. They have been designed to aid in the prevention of collisions at the approaches to major harbors and to aid in the control of traffic in narrow channels and are not intended in any way to impede or alter the applicable laws of the Road Rules. Caution is advised to vessels transiting these lanes and to vessels using these lanes to separate inbound and outbound traffic, and to be free of any traffic. Separation points should not be used except for crossing purposes. When crossing traffic lanes and separation areas use extreme caution.

**NOTE B**  
Additional information can be obtained at nauticalcharts.noaa.gov  
(For offshore navigation only)  
Use larger scale chart outside 5 nm range for more navigation

**NOTE C**  
Submarine pipelines and submarine cables are shown as follows:

- Submarine Pipeline Area
- Submarine Cable Area

**NOTE D**

(For offshore navigation only)  
Use larger scale chart outside 5 nm range for more navigation

**NOTE E**  
The outlined areas represent the limits of the most recent hydrographic survey information that has been evaluated for charting. Surveys have been based on the diagram by date and type of survey. Channels maintained by the U.S. Army Corps of Engineers are periodically surveyed and are shown on the diagram. Refer to Chapter 1 United States Coast Pilot.
