U.S. Department of Commerce National Oceanic and Atmospheric Administration National Ocean Survey

DESCRIPTIVE REPORT

Type of Survey: External Source Data

Registry Number: W00396

LOCALITY

State(s): Florida

General Locality: Dry Tortugas

Sub-locality: 10 NM West of Loggerhead Key

2008

NOAA Ship Nancy Foster

CHIEF OF PARTY Shay Viehman

DESCRIPTIVE REPORT MEMO

March 06, 2018

MEMORANDUM FOR: Atlantic Hydrographic Branch

FROM: Shay Viehman

Chief Scientist, NOAA Ship NANCY FOSTER

SUBJECT: Submission of Survey W00396

This survey was conducted for seafloor mapping purposes.

No products were created for this survey by the field unit. Additional products have been created by the Atlantic Hydrographic Branch (AHB) and are archived at the National Centers for Environmental Information (NCEI). This report was generated by AHB on behalf of the Chief Scientist, as this document will be published and available at NCEI.

Verified tides were applied to the data where possible. All submitted data have been reduced to MLLW and are considered suitable for charting purposes.

This report does not include data acquisition and processing information.

There were no DTONs created for this survey.

NOAA Ship Nancy Foster acquired the data outlined in this report. Data are available at https://www.ngdc.noaa.gov/ships/nancy_foster/NF-08-11-TER_mb.html

This survey will be used to update NOAA navigational products where possible.

The survey is partially adequate to supersede previous data. This survey will be used to update NOAA navigational products where possible. Retain all charted features unless otherwise specified in the accompanying final feature file.

Survey data should be archived at NCEI and the DR memo forwarded to HSD.

	Metadata for Survey W00396	
Project	OSD-AHB-17	
Survey	W00396	
State	Florida	
Locality	Dry Tortugas	
Sub-Locality	10 NM West of Loggerhead Key	
Scale of Survey	1:30000	
Sonars Used	Kongsberg Maritime EM 1002 (MBES)	
Horizontal Datum	North American Datum of 1983 (NAD83)	
Vertical Datum	Mean Lower Low Water	
Vertical Datum Correction	Discrete Zoning	
Projection	Projected UTM 17	
Field Unit	NOAA Ship NANCY FOSTER	
Survey Dates	07/26/2008 - 08/04/2008	
Chief of Party	Shay Viehman	
Submission Date	03/06/2018	

The purpose of this survey is to provide contemporary surveys to update National Ocean Service (NOS) nautical charts. All separates are filed with the hydrographic data. Any revisions to the Descriptive Report (DR) generated during office processing are shown in bold red italic text. The processing branch maintains the DR as a field unit product, therefore, all information and recommendations within the body of the DR are considered preliminary unless otherwise noted. The final disposition of surveyed features is represented in the OCS nautical chart update products. All pertinent records for this survey, including the DR, are archived at the National Centers for Environmental Information (NCEI) and can be retrieved via https://www.ncei.noaa.gov/.

APPENDIX I TIDES AND WATER LEVELS

Survey W00396 does not include supplemental tide or water level information.

APPENDIX II

SUPPLEMENTAL SURVEY RECORDS AND CORRESPONDENCE

Survey W00396 does not include supplemental survey records and correspondence.

APPROVAL PAGE

W00396

Data meet or exceed current specifications as determined by the OCS survey review process. The Descriptive Report and survey data except where noted are adequate to supersede prior surveys and nautical charts in the common area.

The following products will be sent to NCEI for archive

- W00396_DR.pdf
- Collection of depth varied resolution BAGS
- Processed survey data and records
- W00396_GeoImage.pdf

The survey evaluation and verification have been conducted according to current OCS specifications, and the survey has been approved for dissemination and usage of updating NOAA's suite of navigational products.

Approved:			

Lieutenant Commander Ryan Wartick, NOAA

Chief, Atlantic Hydrographic Branch
